

24K ESPADA
BY KOLTE-PATIL

Captivating by Design

Just like corbusier decided to apportion the human anatomy into spirals that expounded the golden ratio, similarly 24K projects have embraced the notion of natural design aesthetics by embedding the golden ratio in its grid designs. Just another expression of an enlightened approach to design.

Design Promise

The Golden Ratio popularised by the legendary architect Le Corbusier is reflected in the Golden Spiral. This is a unique design guideline that we at Kolte-Patil Developers Ltd. have emulated in all our 24K projects. The 24 principles of our design thinking process are divided into 7 categories. Each principle works on a different level to impart the unique and extraordinary 24K experience that takes your lifestyle notches above any other.
